SNAPSHOT ENONKISHU

SCRIBES OF THE CAIRO GENIZA

ZOO NIVERSE

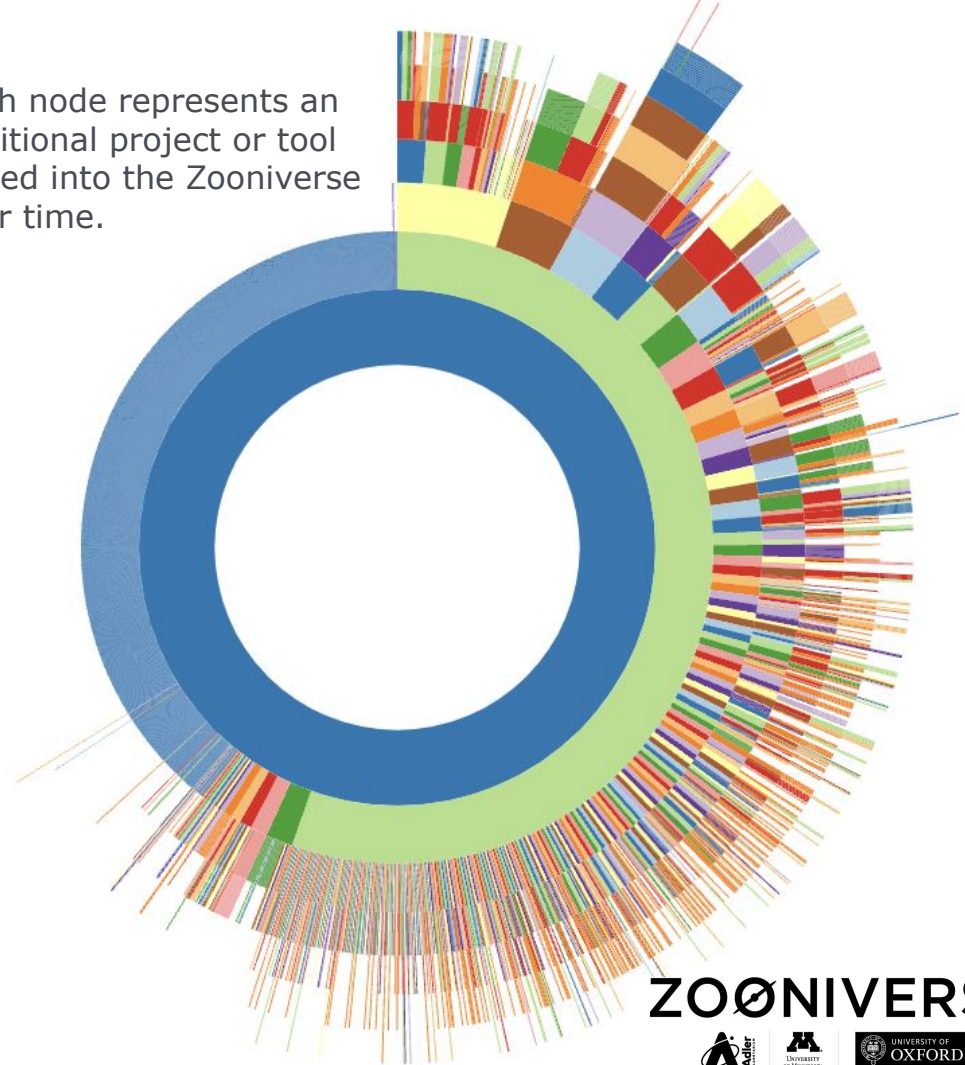

**400 projects
since 2007**

40 in 2023 alone

Each node represents an additional project or tool added into the Zooniverse over time.

ZOONIVERSE

People Power

2.6 million registered participants

780 million classifications total

2023: 65 million classifications

19.5M hours of participation total

2023: 1.6 million hours

Equivalent to 780 FTEs

Impact

Over 400 Publications

(see zooniverse.org/publications)

Backyard Worlds: Planet 9

Artist impression of the brown dwarf W1935.
Image credit: NASA / ESA / CSA / L. Hustak, STScI.

Faherty et al. (2024)

Impact

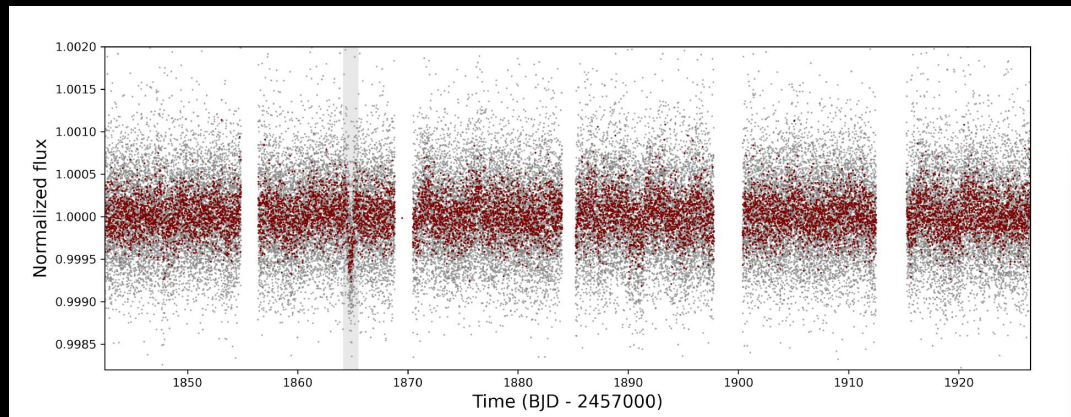

Over 400 Publications

(see zooniverse.org/publications)

Planet Hunters TESS

Latest discovery: Habitable zone planet in a 2-planet, 2-star system

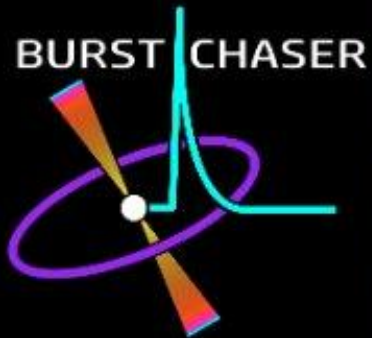

TESS light curve. Vertical gray column highlights the first of 3 transit events observed by TESS to date.

Eisner et al. (2024)

Call to Action: We Need Your Help!

Burst Chaser on Zooniverse

Unveiling the mysterious origin of
gamma-ray bursts
